

KEY MULTIMEDIA 4.1**KEY TOOL FOR IMPROVING PUTONGHUA EDUCATION**

- >> Easily creates Putonghua teaching materials
- >> All text can be read aloud in clear, precise Putonghua
- >> Instantly generates word-based Pinyin with tonemarks

Leading Putonghua educational platform –
used by all major universities in Hong Kong,
North America and Europe

KEY FUNCTIONS

- Lesson Formatting - all the functions you will need
- Text-to-Speech - reads aloud any Chinese text
- English Definitions
- Teachers Annotations
- Student Interactive Reading
- New Vocabulary Identification & Comparison
- Over 240,000-word dictionary supporting automatic word segmentation in Chinese character text

FOR EDUCATORS >>

Creates lessons with traditional and/or simplified text and auto-generated word-based Pinyin with tone marks. Includes characters with multiple sounds

Text & images can be inputted by user, copied from Microsoft Word or any other applications

Supports all student levels - from beginners to job-specific

FOR STUDENTS >>

Any Chinese text can be immediately heard, increasing learning effectiveness. Precise voice with tone sandhi changes

Perfect for language labs - used during class or by students independently

Captures authentic usage of Putonghua especially when 'reading' Internet content
